

LOVE YOUR SKIN

A SERUM IS A POTENT MOISTURISER. IT IS A WATER-BASED, OIL-FREE FORMULATION, WHICH CAN PENETRATE THE TRANSDERMAL LAYER, DIRECTLY DELIVERING THE ACTIVE BOTANICAL INGREDIENTS CARRIED IN ITS WATER MOLECULES TO SKIN CELLS.

The experience of serum on your skin is divine – soothing, cooling and highly absorbent. Any skin state responds beautifully to regular serum use, but a serum can especially regulate dry or oily skin.

Antipodes Hosanna Intense Hydrating Serum, with a delightful scent of French rose and soft spicy cardamom, offers you an advanced rejuvenation treatment with the capability to plump up the skin contour of your face and neck.

The hero ingredient in this serum is a revolutionary new sauvignon blanc grape-seed extract. Vinanza Gold© is derived from a clever adaptation of New Zealand nature, resulting in the world's highest antioxidant levels in grape-seeds. Due to unusually high UV light in the Marlborough region,

the grapes produce levels of powerful antioxidants or polyphenolics, which are at least 10 times more potent than the antioxidants, Vitamin C or E(1). They offer you unique access to their anti-ageing activity because polyphenolic compound is the quintessential antioxidant for damaged and weary skin.

Introduce serum as part of your daily beauty ritual by applying in the morning and evening, extend its application to neck and cleavage for mature skin.
