

# THE GENUINE LUCAS' PAPAW OINTMENT

PAPAW OR PAPAYA, WE ALL KNOW, IS A DELICIOUS FRUIT, BUT THE BENEFICIAL QUALITIES OF PAPAW ARE NOT SO WELL KNOWN.

Papaw contains papain, which helps clean wounds. Dr. Lucas, moved to Australia in 1876 and combined his medical training with his knowledge of natural history and botany. He carried out scientific studies, which led to his formulation of papaw ointment.

His investigations led him to believe he had discovered the world's greatest healing agent and he devoted his research to its application in his profession with many surprising results. Today it is still made to the original formula, formulated over 100 years ago.

Lucas' Papaw Ointment can be taken internally as an aid to digestion and bowel problems or used externally. It can be used for general rectal discomfort by local application and other skin conditions.

Lucas' Papaw Ointment is invaluable for local topical application on:

- Dry and cracked skin
- Cracked nipples
- Bruises
- Burns
